

## CLINICA LUZ

<https://www.clinicaluz.es/>

**Target:** Student Mobility for Traineeship

**Professional Sector:** Medicine or Administration

### Description of the company

Clinica Luz is a private clinic located in Palma de Mallorca (Spain), which attends Spanish and foreigners patients (i.e. people living in Palma but coming from Germany, Uk, Sweden, etc. Thanks to its dynamic economy, Palma de Mallorca is a very international city, where English and other European languages are highly used as working languages.

### ADMINISTRATION Profile- tasks of the Trainee

- Management of organizations
- Customer Care and Welcoming (information, registration to the courses and exams) per mail and phone
- Visits planning & other practical arrangements
- Use of Excel for budgeting and registering economic data and accountability
- Issuing invoices & Inventory of resources

### Knowledge & Skills required

Spanish knowledge in not a must

### MEDICINE Profile - tasks of the Trainee

Clinica Luz offers a tangible clinical experience in different units, such as: Ophthalmology, Dermatology, Otolaryngology, Sport Medicine, Traumatology, Pain Medicine and Neurophysiology.

These units would allow the student to increase their nursery skills and more in-depth the medical ones:

- improve the approach with the patient and evaluate the clinical picture and the risk of the surgical patient
- interpret correctly the results of diagnostic tests, draw up a good medical history and understand the most appropriate treatment options in relation to the patient
- perform the examination needed to reach a diagnosis and recognise the symptoms and signs of pathologies and understand practically how to treat a disease.

In Clinica Luz the student would observe different instrumental tests as:

- Electromiography EMG to evaluate the proper functionig of the muscles
- electroneurography ENG to study the nerve fiber conduction
- electroencephalograms ti study the brain activity

### Knowledge & Skills required

Have attended Medical or Nursery studies
